

Rounding out the conversation

Use this worksheet to chart the shape of the conversation that you're orchestrating in your annotated bibliography. By this point, you should be able to identify which source(s) will serve you in which capacities. Articulating that here will also help you to determine where there are gaps in your research that you will need to address. Please note that you may identify multiple uses for any given source (so that a source may appear in more than one block).
